### Mission, Vision and Goals

#### MISSION

The mission of the Jacksonville University School of Aviation is to produce professional aviators and aviation managers possessing the leadership and professional skills necessary to sustain safety and profitability in global aviation. The School of Aviation achieves this mission with a world-class curriculum that sufficiently equips students to thrive professionally and financially as global aviation evolves.

#### VISION

Our vision is to be the world leader in innovative collegiate aviation programs producing graduates who increase the safety and profitability of global aviation.

#### PROGRAM GOALS

1. Professional Competency: Graduates will possess the requisite knowledge and skills necessary to make an immediate positive impact for their employer as well as act with the highest standards of professionalism evidenced by their ethical character and integrity.
2. Regulatory Compliance: Graduates will be able to assess the role and impact of regulatory compliance in the conduct of global aviation commerce.
3. Triple Bottom Line: Graduates will be able to apply the knowledge that sustained profitability in global aviation commerce results from the involvement of innovative and engaged people who develop optimal use of resources.
4. Critical Thinking: Graduates will demonstrate the planning, decision making, workload management, and communication skills necessary to engage in effective critical thinking.
